Interrogatory (No. PHS-MLP-1-69): Does ML&P provide, and has it ever provided, grants or other financial incentives for energy efficiency to its customers? If so, how much has it provided since the year 1995, and to which customer classes? If not, why not?

Response: ML&P does not have an ongoing program of providing energy efficiency grants to its customers. ML&P believes that customers making and benefitting from energy efficiency investments should pay for them, so that the burden will not be borne by customers not benefitting from the investments.

Person Supplying Information: Bob Reagan.
